

# 1-day Seminar

## Academic Hospital Build: lessons learned on innovative design concepts and project management

Erasmus University Medical Centre opens its doors to share their experiences and lessons learned, halfway through their 200.000 square meter redevelopment project. In collaboration with EGM architecten, this one day seminar offers a choice of workshops and tours, followed by a plenary session presenting a mix of managerial, medical and architectural highlights of this ambitious project. The key note speech is given by prof. Kirk Hamilton, one of the world's opinion leader on Evidence Based Design. The program finishes with a reflection by retiring project architect Bas Molenaar, partner at EGM architecten. A drinks reception is organized following the seminar in his honour.

### Date:

27 November 2014,  
9.00 till 18.00 hrs

### Location:

Erasmus MC Education Centre,  
Room: 'Collegezaal 2'
