

# Nötkärnan Bergsjön Vårdcentral

-developing a health care center in a challenging environment

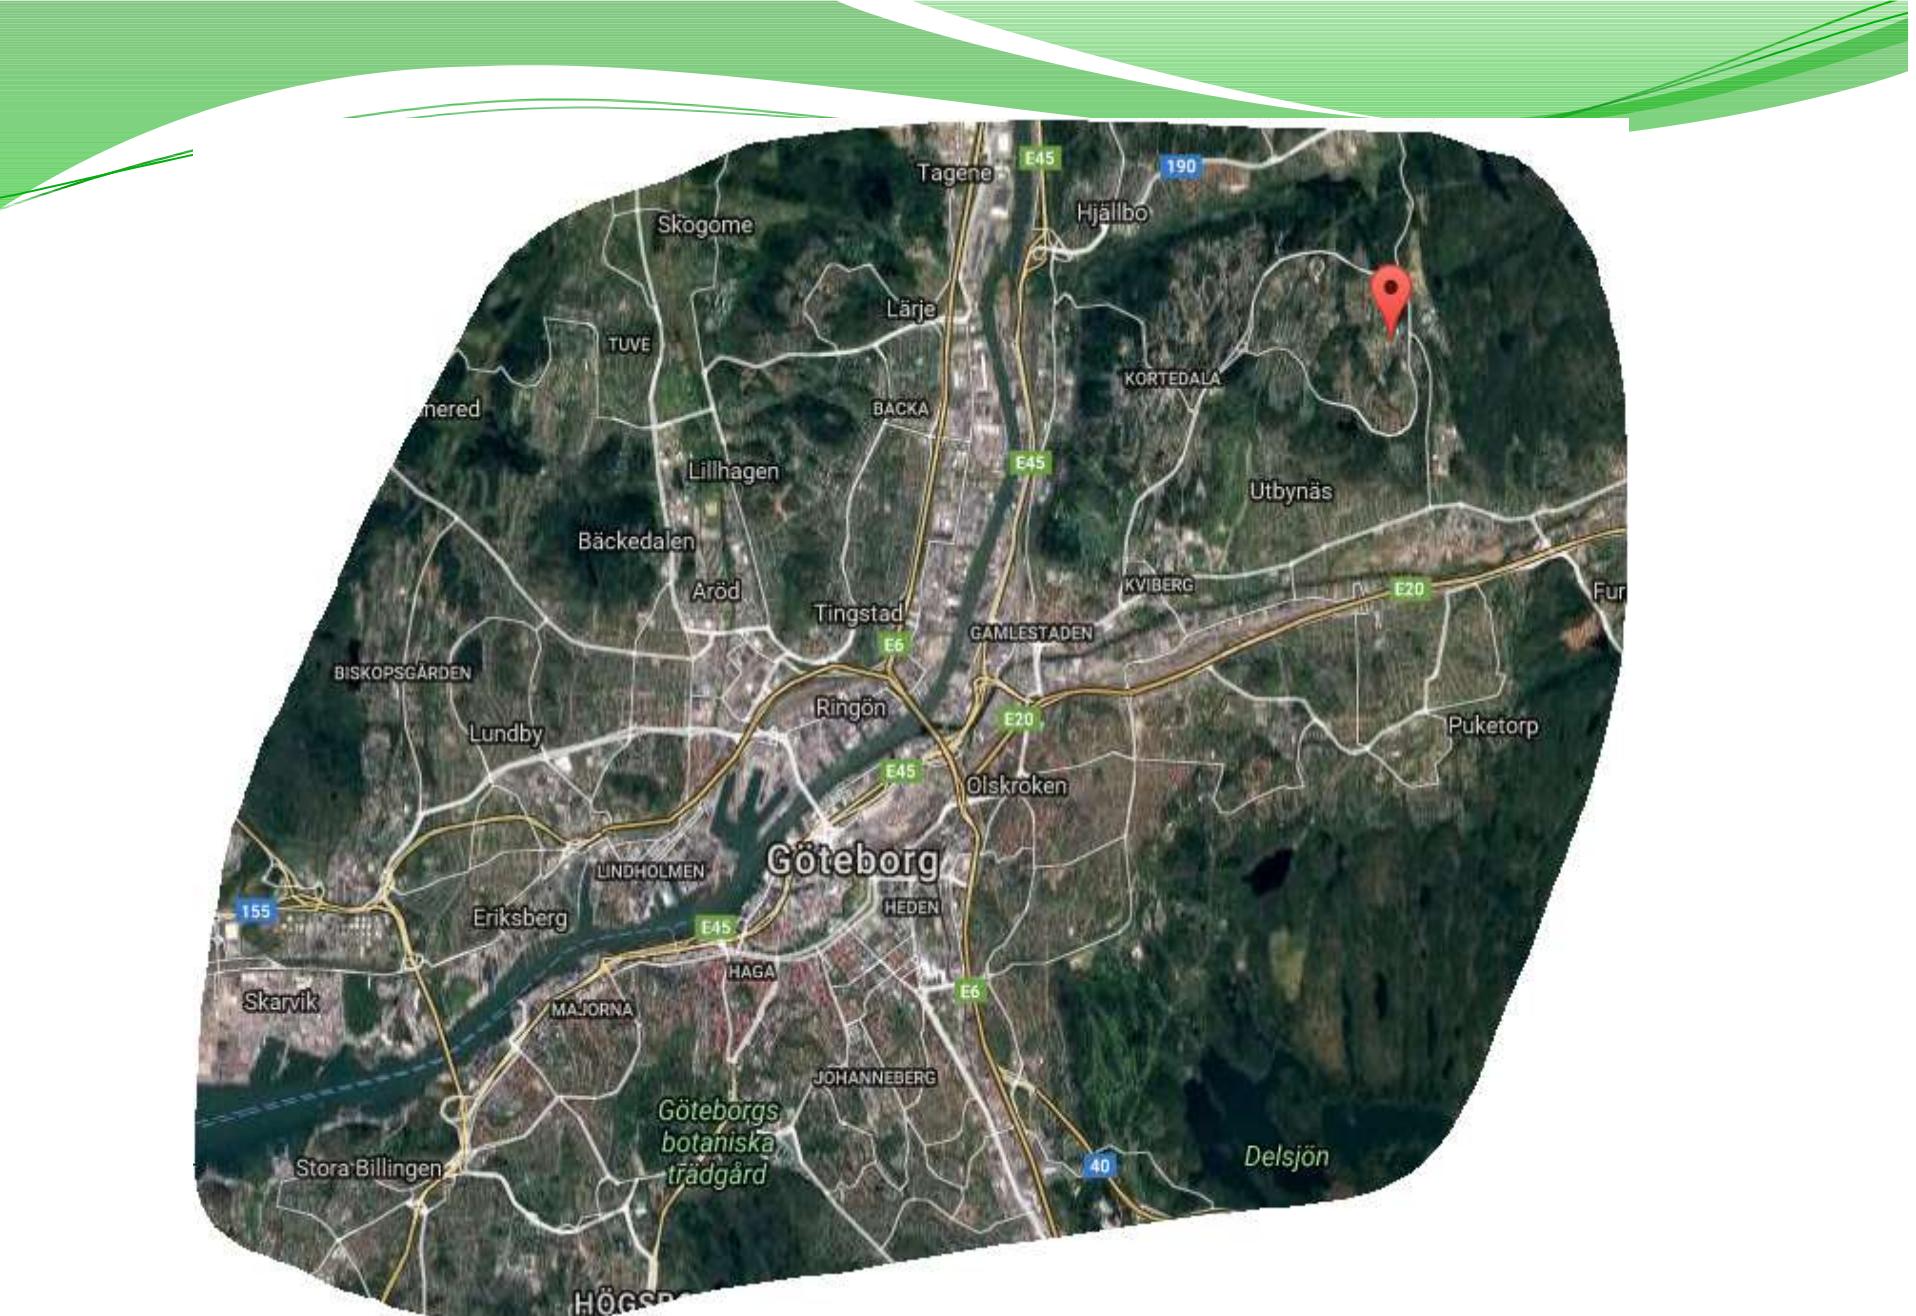

- Founded in 2009 as one of the seven doctors owned health care centers in the Nötkärnan group

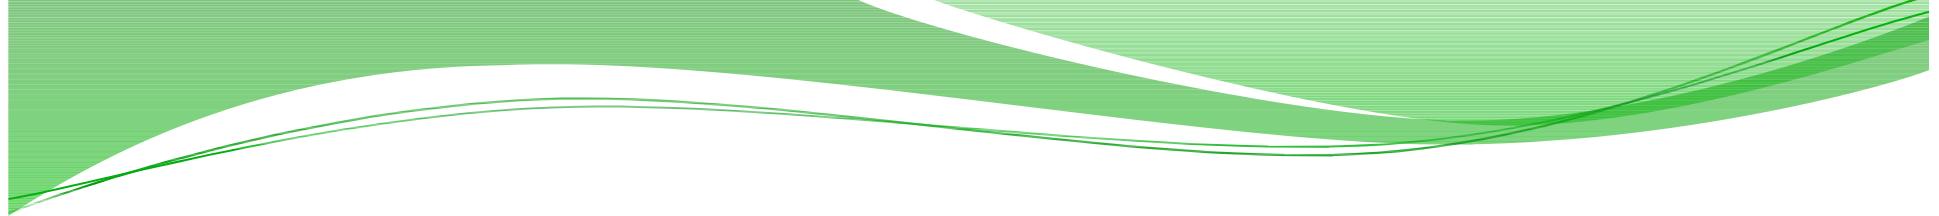

# Vg-primärvård

- Solid and relativly simpel system for economic compensation
- Large measure of freedom in how to organize the health care center
- 140 health care centers becomes 205 without any increase in the total cost of about 5 billion kronor
- Distributes more money to the "sick and poor"

25-års perspektiv med egen finansiering

# Bergsjön

16 500 inhabitants

Percentage  
employed 41%

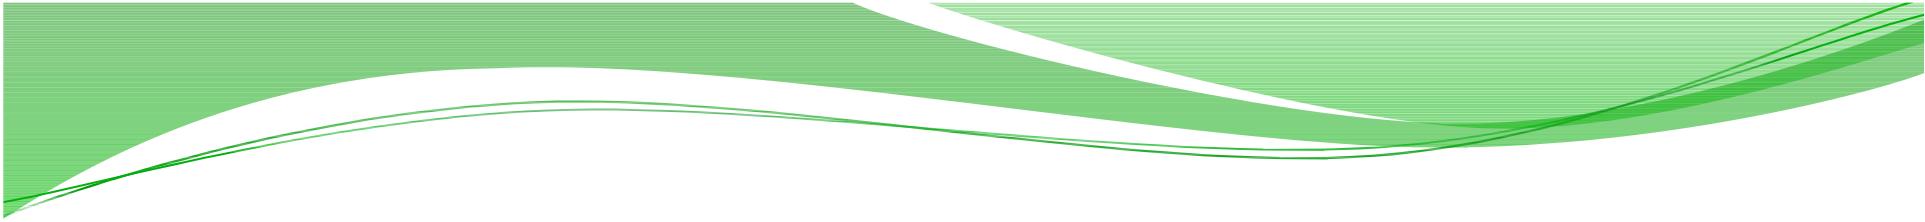

No health care  
center before 2009

60 % immigrants

The largest groups:

- Somalia
- Irak
- Balkan

Many refugees

# What is General Practice?

- A fundamentally contested concept
- Medical generalist competence
- Oriented towards individuals rather than diagnoses
- Excellence is created through experienced based, practical knowledge
- Based on creating and keeping relations with our patients
- Continuity in the doctor patient relation is crucial

# Health care ideology

- Adaptation to our population
- Drop-in as the main manner of contact
- The patient determines its need to see his/her doctor
- The patient selects his/her doctor
- Our own employed interpreters in Arabic, Somali, Kurdish, Bosnian, Croatian and Serbian. Six persons employed full time

# Development since 2009

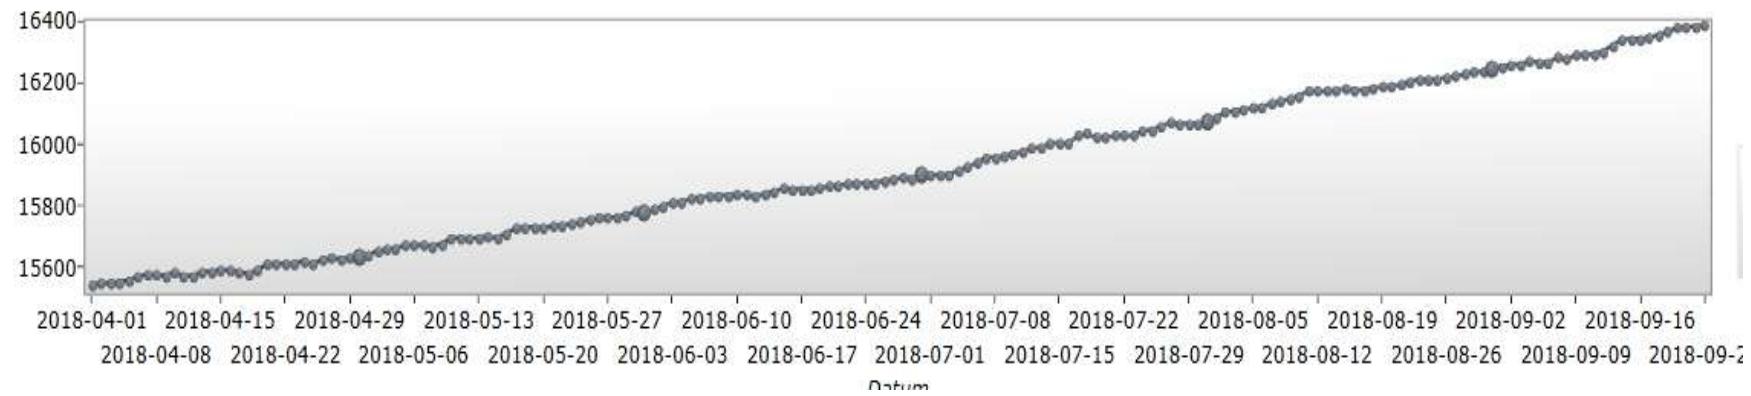

- Number of individuals listed 2009-10-01: 6000
- Number of individuals listed 2018-09-23: 16379
- Number of doctors 2009-10-01: 2
- Number of doctors 2018-09-24: 17, varav 9 spec
- Total number of employed about 65

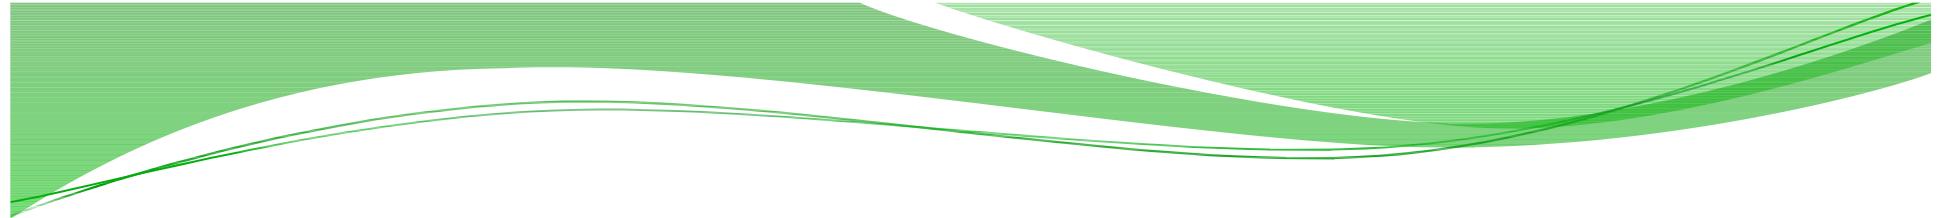

# Development since 2009

- Two fulltime psykologists + four external part time psykologist consultants.
- Bergsjön Physiotherapy started in feb 2017
- Four physiotherapists en one occupational therapist
- And from jan 2018 we have a primary care emergency center from 17:00-22:00 mon-fri, and 10:00-16:00 sat and sun
